THE COST OF LICENCE-FREE RADIOS

SCHOOLS OFTEN CHOOSE LICENCE-FREE RADIOS AS THEY'RE **CHEAP** AND WORK STRAIGHT **OUT THE BOX**.

BUT THEY SUFFER FROM:

OUTSIDE INTERFERENCE

LICENCE-FREE RADIOS OPERATE ON OPEN 446 FREQUENCIES, SO OTHER LICENCE-FREE USERS OUTSIDE OF THE SCHOOL CAN ACCESS THE SAME CHANNELS.

POOR COVERAGE

LICENCE-FREE RADIOS ONLY HAVE 0.5W OF POWER OUTPUT SO THEY STRUGGLE FOR COVERAGE IN BUILT-UP AREAS OR ACROSS LONG DISTANCES.

LOW BUILD QUALITY

LICENCE-FREE RADIOS TEND TO HAVE LOWER BUILD QUALITY THAN LICENCED RADIOS (HENCE THEIR PRICE) SO THEY COMMONLY DON'T LAST THE TEST OF TIME, OR HAVE THE FEATURES OF THEIR LICENCED COUNTERPART.

THE LONGEVITY OF LICENCED RADIOS.

SCHOOLS SHOULD ALWAYS USE LICENCED RADIOS, AND
HERE'S WHY:

MORE SECURE FREQUENCIES

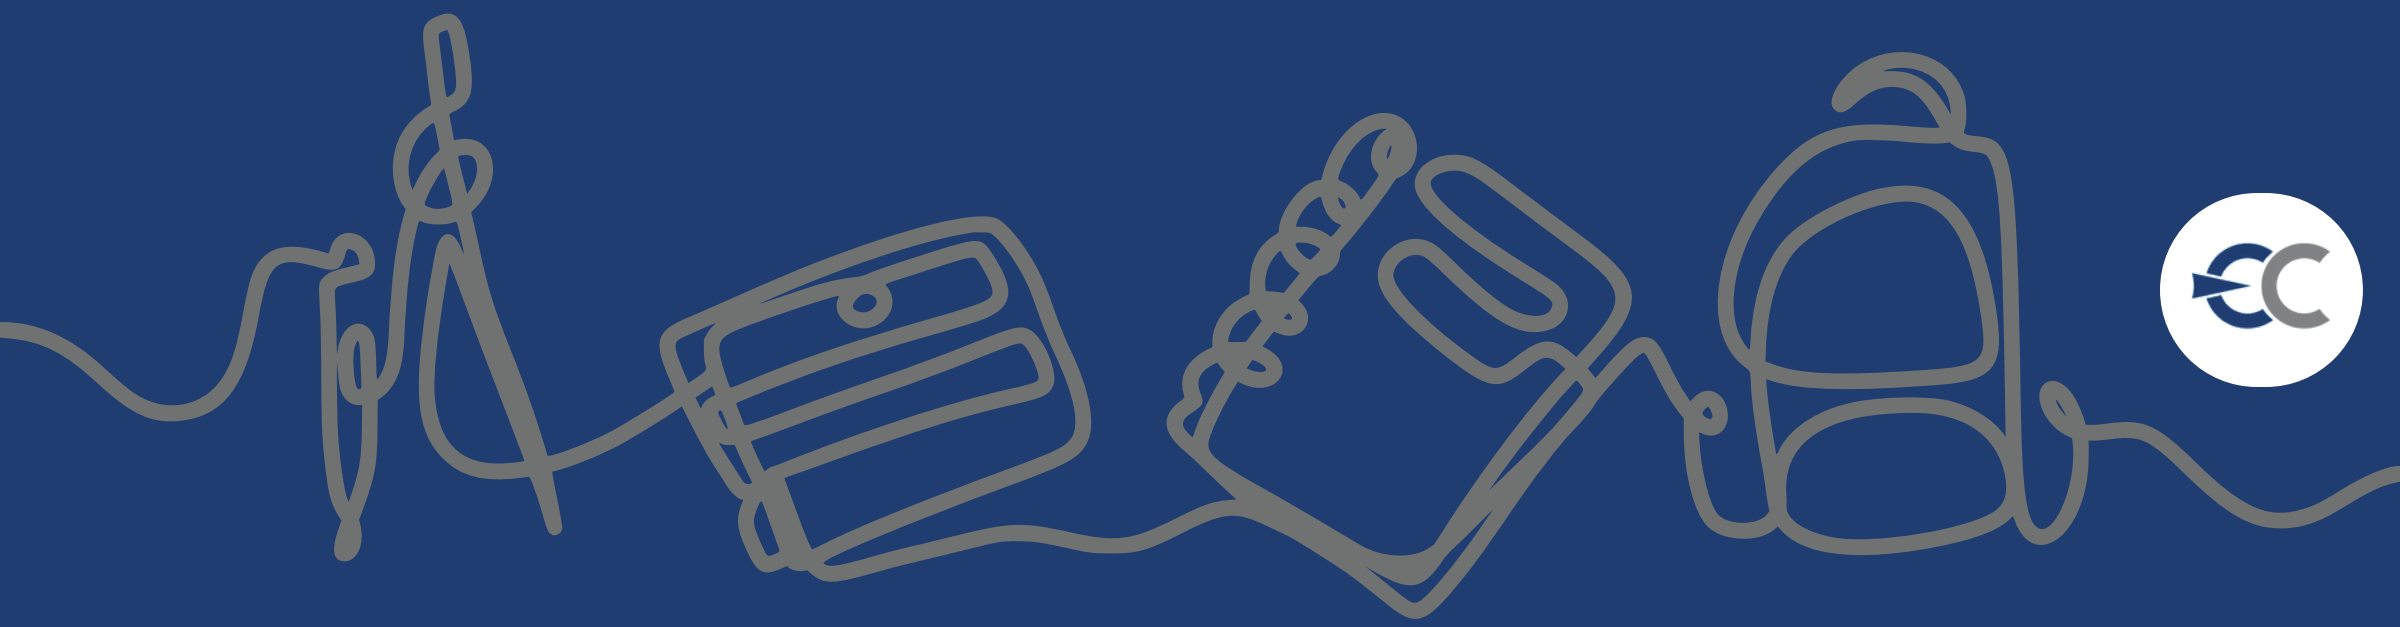

LICENCED RADIOS OPERATE ON DEDICATED FREQUENCIES SO THEY'RE FAR LESS SUSCEPTIBLE TO INTERFERENCE.

BETTER COVERAGE

LICENCED RADIOS TEND TO HAVE 4W OF POWER OUTPUT SO THEY COPE BETTER IN BUILT-UP AREAS AND WORK BETTER OVER LONGER DISTANCES - IN COMPARISON TO LICENCE-FREE.

HIGH BUILD QUALITY

LICENCED RADIOS TEND TO BE MORE ROBUST AND RUGGED, HAVE (ON AVERAGE) HIGHER IP RATINGS, MORE RELIABLE BATTERY PERFORMANCE, AND ACCESS TO IMPORTANT SAFETY FEATURES (LONE WORKER, MAN DOWN, LOCATION TRACKING, PANIC ALARM).

DON'T BE PUT OFF BY AN OFCOM LICENCE.

MANY SCHOOLS AVOID LICENCED RADIOS DUE TO A MISCONCEPTION THAT PAYING FOR AND MANAGING AN OFCOM LICENCE IS TOO COSTLY.

BUT THE TYPICAL COST OF A LICENCE IS INCREDIBLY REASONABLE.

AND PROVIDERS LIKE OURSELVES WILL MANAGE THE LICENCE ON BEHALF OF THE SCHOOL.

FROM THE APPLICATION PROCESS ALL THE WAY THROUGH TO THE RENEWAL STAGE.

TYPICAL COST

£75

FOR

5 YEARS

COST MAY VARY BASED ON LICENCE TYPE AND GEOGRAPHICAL LOCATION.

PUT YOURSELF IN SAFE HANDS WITH **EEMITS**.

WE WORK WITH SCHOOLS ACROSS THE UK TO RECOMMEND AND IMPLEMENT THE RIGHT TWO-WAY RADIO SOLUTION.
