## FOR EDUCATION

Today's world is dominated by touch technology, so it is only natural that education establishments are using interactive tools and devices to help inspire and educate the digital generation. As a response to the global pandemic, schools, colleges, and universities have had to adapt rapidly to continue functioning through remote and hybrid learning.

Avocor interactive displays are intuitive and easy to use in all teaching scenarios enhancing group collaboration and team work beyond the classroom.

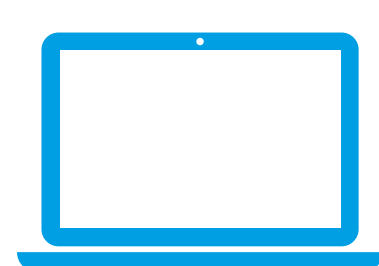

### BENEFITS OF AVOCOR'S INTERACTIVE DISPLAYS FOR EDUCATION ENVIRONMENTS:

**Microsoft Office 365 integrates effortlessly** with Avocor interactive displays enabling teachers to quickly and simply extend the O365 experience from personal devices to group collaboration settings, creating a more productive, real-time learning environment. Students and teachers can contribute to content simultaneously that can be saved and accessed via the cloud at anytime, anywhere, continuing their learning experience outside of the classroom.

Avocor provides **the best-in-class touch experience**, utilising optically bonded glass providing a superior touch technology, that delivers a natural, fluid writing experience with zero lag. Object recognition that differentiates between pen, finger, and palm delivers a smooth transition for a highly responsive annotation experience.

**Seamless lesson delivery** with a larger field of view enables teachers to see virtual students on their laptop or smaller display device whilst delivering interactive lesson content at the same time without switching content sources.

**Optimised for Windows 10**, Avocor displays are the ideal platforms for classflow with teachers' devices, they also include edge-swipe functionality and support commonly used gestures helping to accelerate adoption rate across the teaching staff. Avocor interactive displays bring familiarity into the classroom by replicating a tablet-like experience on a large scale, enhancing collaboration and interaction in the classroom.
