

## Hacking risk areas: Enterprise

### Protect against data breaches – wherever you work.

With the rise of shared work spaces, hot desking and remote work, the opportunity for confidential information to be exposed on-screen is high. Arm your organisation with 3M™ Privacy Filters, and give your workers screen protection, anti-glare protection, blue light reduction and world-class privacy – wherever they're working.

### 3M™ Privacy Filters: The necessary accessory.

**Don't become another data breach statistic.**

**The average global cost  
of a data breach is**

**£2.82m<sup>1</sup>**

**Get protected.**

Protect your screens and the confidential data on them with the world-class privacy and protection you get from a 3M™ Privacy Filter.

<sup>1</sup> Annual Cost of a Data Breach Report, Ponemon Institute/IBM Security, 2020. (\$3.86m)
