## AVOCOR FOR EDUCATION

Avocor creates interactive solutions designed to enhance smart, effective collaboration both in and out of the classroom walls. Built for simplicity and incredibly easy to use, Avocor interactive displays are intuitive to use for teachers and students, enhancing interaction in the classroom by replicating a tablet-like experience on a large format interactive device.

Here are **5 reasons why Avocor displays are the perfect solution for learning environments:**

### 1. Optimized for Windows 10

Optimized for Windows 10 and O365 ecosystem, Avocor displays are the ideal platforms for class-flow with teachers' devices and include edge-swipe functionality for a true-tablet like experience.

### 2. Ideal for hybrid learning environments

As a response to the COVID-19 pandemic, many education establishments have adopted a hybrid learning model. Avocor solutions offer seamless integration with video collaboration platforms, including Zoom and Microsoft Teams, for a holistic learning environment.

### 3. Best-in-class touch experience

Avocor displays feature superior glass technology to deliver a natural, fluid writing

experience with zero lag. Object recognition that differentiates between pen, finger, and palm ensures a smooth transition for a highly responsive annotation experience.

### 4. Legacy software

Avocor solutions are based on an open, agnostic platform, meaning they can be integrated with 3rd party platforms, including legacy software and proprietary applications.

### 5. Warranty

Avocor solutions for education come with a 5-years onsite warranty for ultimate peace of mind that reduces lesson downtime.

*"From the start of our engagement with Avocor, we have been impressed with the product quality and the support we have received. This demonstrated to me that Avocor was a brand that cared about customer relationships and gave me the confidence that Avocor would be actively supportive through the lifecycle of the displays as we rolled them out across our estate."*
