

COMPLETE PLANT AUDITS

Optimize Efficiency & Cut Energy Costs

The Problem

Compressed air is one of the highest energy expenses in manufacturing. Undetected inefficiencies can cost plants hundreds of thousands of dollars annually.

The Solution

IAC's Certified U.S. Department of Energy AIRMaster+ Specialists don't just identify issues—they engineer precise, facility-specific solutions using advanced data analysis and industry-leading technology. Our audits help facilities produce more with less air and less power, cutting costs while enhancing system reliability.

Our Process

1. Establish a Performance Baseline

Measure compressed air costs, flow rates, and pressure variations.

2. Analyze Inefficiencies

Detect system leaks, part-load operations, and wasted energy.

3. Pinpoint Root Causes

Identify the underlying problems affecting performance.

4. Engineer Precise Solutions

Apply facility-specific improvements for cost savings & efficiency.

The IAC Difference

- ✓ **Reduce Energy Costs**
Clients have cut energy costs by up to **38%**.
- ✓ **Enhance System Reliability**
Prevent breakdowns and reduce downtime.
- ✓ **Maximize Operational Efficiency**
Identify and fix leaks, part-load operations, and waste.
- ✓ **Qualify for Rebates**
One client secured a **\$130,746.56 rebate** by improving efficiency.
- ✓ **Custom Engineering Solutions**
Tailored to your facility's unique challenges.

“ We don't have to call in an audit team anymore when we want to check efficiency. Previously, we didn't know much about our compressed air system until something broke. Now, we have the tools to continuously monitor system health & perform preemptive repairs.

INDUSTRIAL AIR CENTERS

Our Promise

To deliver adaptable, efficient air solutions that enhance your operational productivity & reduce energy costs.

Our Mission

To revolutionize uptime with adaptable, ready-to-deploy air solutions that create more compressed air with less energy.

Our Values

- S** Safety always
- E** Excellence in all we do
- R** Respect for each other
- V** Value in our relationships
- E** Enthusiasm about what we do
