PULSA

Electrical Clip Guide

SPIT

PULSA 27E

A powerful yet compact nail gun designed for electricians to fix cable and conduit **with ease**

Powerful yet compact

One of the **lightest but most powerful gas nailers** on market with **10,000 shots per charge** as standard and easy access into those tight spaces.

One tool for multiple applications

Instantly fix all sorts of cable, conduit, trunking, back boxes and much more, **directly in to concrete, steel, masonry and timber.**

Safety without compromise

Reduce Hand Arm Vibration & Dust through mitigating the need for drilling.

Save money and time

Up to **8 times faster** than traditional methods of fixing, removing the need to drill and plug.

Designed for comfort

A well balanced tool to work faster with less fatigue.

3 YEARS FREE SERVICE & REPAIR

NEVER STOP BUILDING
