

Do you take care of your dog's teeth?

Did you know?

- Dogs love to explore the world through their mouth, so it's important to take care of their teeth
- Bad breath is not normal
- Gum problems are painful and dogs hide pain well
- The enamel on dog's teeth is far thinner than ours and is easily damaged
- Daily tooth brushing is the best way to care for your dog's teeth

For a practical guide on caring for your dog's teeth, as well as further information about Pedigree® DentaStix™ Oral Care, please visit:
